

## **Dr. Tvrtnko Smital – CURRICULUM VITAE**

<b>First name:</b>	Tvrtnko	
<b>Family name:</b>	Smital	
<b>Date of birth:</b>	October 14 <sup>th</sup> 1968	
<b>Place of birth:</b>	Vinkovci, Croatia	
<b>Nationality:</b>	Croatian	
<b>Present position:</b>	Head of the Laboratory for Molecular Ecotoxicology, Division for Marine and Environmental Research, Ruđer Bošković Institute, Zagreb, Croatia,	
<b>Marital status:</b>	Married, daughter Mila (20 yrs), sons Tomo (17 yrs) and Mika (13 yrs)	

---

### **Education:**

- University of Zagreb, Faculty of Science; B. Sc., 1994, Biology-Ecology
- University of Zagreb, Faculty of Science; M. Sc., 1998, Biology-Toxicology
- University of Zagreb, Faculty of Science; PhD, 1999, Biology-Ecotoxicology

### **Employment:**

- 1995 – 1998, postgraduate student, Laboratory for Molecular Ecotoxicology, Department for Environmental Research, Ruđer Bošković Institute, Zagreb, Croatia;
- 1998 – 2000, Research Assistant, Laboratory for Molecular Ecotoxicology, Department for Environmental Research, Ruđer Bošković Institute, Zagreb, Croatia;
- 2000 – 2002, Higher Research Assistant, Laboratory for Molecular Ecotoxicology, Department for Environmental Research, Ruđer Bošković Institute, Zagreb, Croatia;
- 2003/2004 – Hopkins Marine Station of Stanford University, CA, USA – postdoctoral research, *Fulbright Scholar Program*;
- 2004 – present, Head of the Laboratory for Molecular Ecotoxicology, Department for Marine and Environmental Research, Ruđer Bošković Institute, Zagreb, Croatia.

### **Graduation thesis:**

The determination of inhibitors of the multixenobiotic resistance (MXR) mechanism, *Faculty of Science, University of Zagreb*, Zagreb, Croatia, 1994.

### **Master thesis:**

*In vivo* determination of the concentration of inhibitors of the multixenobiotic resistance (MXR) in river waters, *Faculty of Science, University of Zagreb*, Zagreb, Croatia, 1998.

### **PhD thesis:**

Activity of the multixenobiotic resistance mechanism in aquatic organisms as the indicator of environmental quality, *Faculty of Science, University of Zagreb*, Zagreb, Croatia, 1998.

## **Research interests, experience and competences:**

Environmental toxicology: research on the interaction of environmental contaminants with basic cellular detoxification mechanisms in aquatic organisms: phase I and II detox enzymes and phase 0/III polyspecific uptake (SLC) and efflux (ABC) transporters; identification of ecotoxic substances in complex environmental samples (sediment, wastewater, surface water, soil, sludge...) using the Effects-Directed Analyses (EDA) approach.

Methods: *in vitro* cell culture techniques; enzymatic analysis, cytotoxicity, genotoxicity, chronic toxicity, phase I and II induction/inhibition, *in vitro* and *in vivo* transport activity determinations for uptake and efflux transmembrane proteins, molecular biology techniques, zebrafish functional genomics based on CRISPR/Cas9 gene editing.

## **Publication record:**

- >50 research articles, 3 book chapters, 1 patent
- >1400 citations (Scopus/Web of Science/)
- *h* index 23 (Mar 2019)

### **Science Citation Index Publications**

1. **Smital T, Pivčević B. and Kurelec B.** (1996) Reversal of multidrug resistance by extract from the marine alga *Caulerpa taxifolia*. *Period. Biol.* **98**: 165-171.
2. **Smital T. and Kurelec B.** (1997) Inhibitors of the multixenobiotic resistance mechanism in natural waters: *In vivo* demonstration of their effects. *Environ. Toxicol. Chem.* **16**: 2164-2170.
3. **Kurelec B., Smital T., Britvić S., Pivčević B., Krča S., Jelaska D., Balen S., Sauerborn R. and Mustajbegović S.** (1997) Multixenobiotic defence mechanism in aquatic organisms. *Period. Biol.* **99**: 319-328.

## Book Chapters

1. **Epel, D. and Smital, T.** (2001) Chapter 14: Multidrug-Multixenobiotic Transporters and Their Significance with Respect to Environmental Levels of Pharmaceuticals and Personal Care Products. In: ACS Symposium Series 791 – *Pharmaceuticals and Personal Care Products in the Environment: Scientific and Regulatory Issues*, Daughton, C.G. & Jones-Lepp, T. (Eds.), ACS/Oxford University Press, USA, p. 244-263.
2. **Smital T.** (2008) Acute and Chronic Effects of Emerging Contaminants. In: THE HANDBOOK OF ENVIRONMENTAL CHEMISTRY - Emerging Contaminants from Industrial and Municipal Wastewaters. Barcelo, D. & Petrovic, M. (Eds.), Springer-Verlag, Heidelberg, Germany, p.105-142.
3. **Smital, T. and Ahel, M.** (2015) Ecotoxicological characterization of the Sava River: biomarker responses and biological assays. In: THE HANDBOOK OF ENVIRONMENTAL CHEMISTRY 31 – The Sava River. Milacic, R. (Ed), Springer-Verlag, Heidelberg, Germany.

## Patent

- **Kurelec B., Pivčević B. and Smital T.** (1996) Extract from marine tropic alga introduced into Mediterranean, *Caulerpa taxifolia*, reverts multidrug resistance (MDR) in tumour cell culture. *Croat. Pat. App.*, No 559-03-86-01.

## Invited Lectures

1. **Smital, T.**, Use of efflux transporters as biomarkers - Marine Pollution Class, Hopkins Marine Station of Stanford University, CA, USA, 09.02.2004;
2. **Smital, T.**, Ecotoxicological relevance of MultiXenobiotic Resistance (MXR) defense system in aquatic organisms, Bodega Bay Marine Laboratory – University of California Davis, Davis, CA, 03.04.2004;
3. **Smital, T.** Ecotoxicological relevance of the MultiXenobiotic Resistance (MXR) inhibitors – MXR inhibitors as a new class of hazardous chemicals among pharmaceuticals, personal care products, pesticides and other conventional

pollutants, *Swiss National Research Programme 50 Seminars*, University of Zürich and University of Lausanne, Switzerland, 27.-30.04.2005;

4. **Smital, T.** Inhibitors of the ABC Transport Proteins as Emerging Pollutants - Determination and Ecotoxicological Relevance. EUROTOX 2006/6CTDC Congress (43rd Congress of the European Societies of Toxicology and 6th Congress of Toxicology in Developing Countries), Cavtat/Dubrovnik, Croatia, 20-24.09.2006;
5. **Smital, T.** Ecotoxicological Relevance of the ABC Transport Proteins in Aquatic Organisms - from multidrug (MDR) to multixenobiotic (MXR) resistance and back. CIIMAR, University of Porto, Porto, Portugal, June 26-27, 2007.
6. **Smital T.** ABC Transport Proteins in Aquatic Organisms – Identification, Characterization and Ecotoxicological Relevance. 2nd FEBS Special Meeting on ABC Proteins, ABC2008, Innsbruck, Austria, March 1-8, 2008.
7. **Smital T.** Effect-directed analyses (EDA) approach for identification of hazardous chemical contamination in the Sava River basin. 2nd REP LECOTOX Workshop: „TRENDS IN ECOLOGICAL RISK ASSESSMENT“, Novi Sad, Serbia, Sep 23, 2009.
8. **Smital, T.**, Zaja, R., Popović, M., Lončar, J. Uptake and efflux transporters versus the ADME-Tox concept in aquatic toxicology. Primo 16 - Pollutant Responses in Marine Organisms Conference, Long Beach, CA, SAD, May 14-18, 2011.
9. **Smital T.** Uptake and efflux transport proteins as integral elements of the cellular detoxification and environmental stress response in aquatic organisms. 28th ESCPB Congress (European Society for Comparative Physiology and Biochemistry), Bilbao, Spain, Sep 2-5, 2012.
10. **Smital T.** Polyspecific uptake and efflux membrane transport proteins as integral elements of the cellular detoxification and environmental stress response in zebrafish. EZRC (European Zebrafish Resource Center), KIT (Karlsruhe Institute of Technology). Dec 2, 2014.
11. **Smital, T.**, Bakran-Petricioli, T., Hamer, B., Petricioli, D., Mlinarić, D. Current practices in environmental impact assessment of drilling and gas exploitation activities in the Croatian part of the Adriatic Sea. 8th International Oil and Gas Conference and Exhibition, Šibenik, Croatia, October 2015.
12. **Smital, T.** Molecular Ecotoxicology - an exciting journey from basic understanding of cellular defense to new biological indicators of environmental quality. Festival of education and science, Oct 29, 2015, Sinj, Croatia.
13. **Smital, T.** (2018) Research on uptake and efflux transporters in ecotoxicology – a strong link between Switzerland and Croatia. „15th International Symposium on Persistent Toxic Substances“ (ISPTS2018), Basel, Switzerland, Nov 8-10, 2018.

## Research projects

Past:

- *The environmental implications of the multixenobiotic resistance mechanism expressed in marine invertebrates*, (1995-1996) - UNEP, FAO, Mediterranean Action Plan, Athens. – member of the project team;
- *Multixenobiotic Resistance in the Environmental Risk Assessment*, (1996-2001) – Project supported by the Croatian Ministry of Science and Tehnology, project No P00981510 – member of the project team;
- *An integrated environmental monitoring system for Croatian freshwater, estuarine and coastal marine areas*, (2002-2004) – Project supported by the Research Council of Norway. Collaborative institutions were Norwegian Institute for Water Research (NIVA, Oslo, Norway), Ruđer Bošković Institute (Zagreb, Croatia), Faculty of Science (Zagreb, Croatia) and Department of Biology, University of Osijek (Osijek, Croatia) – leader of the project workgroup;
- *Multixenobiotic Resistance Mechanism as a Biomarker of Environmental Quality*, (2002-2006) – Project supported by the Croatian Ministry of Science and Technology, project No P0098135 – principal investigator;
- *EMCO - Reduction of environmental and health risks, posed by Emerging Contaminants, through advanced treatment of municipal and industrial wastes*. EC FP6 Project (2004-2007) – leader of the project workgroup;
- *SARIB – Sava River Basin: Sustainable use, management and protection of resources*. EC FP6 Project (2004-2007) - leader of the project workgroup;

- Profiling of transcript levels and functional properties of (eco)toxicologically relevant ABC transport proteins in rainbow trout (*Oncorhynchus mykiss*) tissues and corresponding cell lines, (2008-2009) – Croatia (Ministry of Science Education and Sports) – Germany (DAAD) bilateral project – co-principal investigator;
- Assessment of hazardous chemical contamination in the Sava River basin, (2007-2010) – NATO Science for Peace Project – co-director of the project;
- Establishing and developing of an ecotoxicology platform in Serbia and Croatia: a focus on zebrafish (*Danio rerio*) – Swiss National Science Foundation (SNSF), SCOPES 2009-2012: Joint Research Project – co-principal investigator;
- Systematic Research of the Adriatic Sea as a Base for Sustainable Development of the Republic of Croatia - Project "Adriatic", (1998-2010) – Project supported by the Government of the Republic of Croatia - leader of the project workgroup;
- Ecotoxicological significance of ABC transport proteins in aquatic organisms, (2008-2013) – Project supported by the Ministry of Science Education and Sports – principal investigator.
- EDA-EMERGE - Innovative biodiagnosis meets chemical structure elucidation – Novel tools in effect directed analysis to support the identification and monitoring of emerging toxicants on a European scale, (2012-2015) – Marie Curie Initial Training Networks (ITN) project - leader of the project workgroup;
- Identification and characterization of cyanobacterial toxins based on their interaction with basic cellular detoxification systems in zebrafish (*Danio rerio*) and zooplankton *Daphnia magna*. Swiss National Science Foundation (SNSF), SCOPES 2014-2016 Joint Research Project – co-principal investigator;
- Identification and functional characterization of (eco)toxicologically relevant polyspecific membrane transport proteins in zebrafish (*Danio rerio*), (2014-2017) – Croatian Science Foundation research project – principal investigator;

#### *Ongoing:*

- Ecotoxicological characterization of biologically active substances and complex marine environment samples – Project within the Centre for Excellence for Science and Technology – Integration of Mediterranean Region (ZCI-STIM; <https://stim.unist.hr/hr/>) (2017-2021) – project funded by the European Union through the European Regional Development Fund – the Operational Programme Competitiveness and Cohesion 2014-2020 (KK.01.1.1.01); principal investigator.

#### **Educational Activities/Lecturing**

- M. Erk, T. Smital – Course *Biological effects of metals and organic pollutants on marine organisms*; Postgraduate study, Oceanology, Faculty of Science, University of Zagreb;
- T. Smital – Course *Ecotoxicology*; Postgraduate study "Protection of Nature and the Environment", University of Osijek;
- G. Klobučar, M. Pavlica, V. Garaj-Vrhovac, T. Smital – Course *Biomarkers in Biomonitoring of Environmental Contamination*; Postgraduate study in Biology, Faculty of Science, University of Zagreb.

#### **Mentorships**

Supervision of 7 undergraduate, 1 MSc and 9 PhD students at Croatian universities. Co-supervision of 7 PhD students and/or postdocs from abroad (Norway, Italy, Serbia, Germany, Portugal, Switzerland).

#### **Referee for Journals**

Analytical and Bioanalytical Chemistry; Aquatic Toxicology; Archives for Environmental Contamination and Toxicology; Comparative Biochemistry and Physiology; Chemosphere; Development, Growth and Differentiation; Environmental Pollution; Environmental Science and Technology; Environmental Toxicology; Journal of Cell Physiology; Marine Biology; Marine and Environmental Research; Mutation Research; Water Research, PLOS ONE.

**Referee for national science foundations**

German Research Foundation (DFG), Portuguese National Science Foundation (FCT), US National Science Foundation, Czech Science Foundation (GAČR)

**Memberships**

Member of Croatian Biological Society, Croatian Toxicological Society and International Society of Ecotoxicology and Environmental Safety (SECOTOX).
