## UVOD

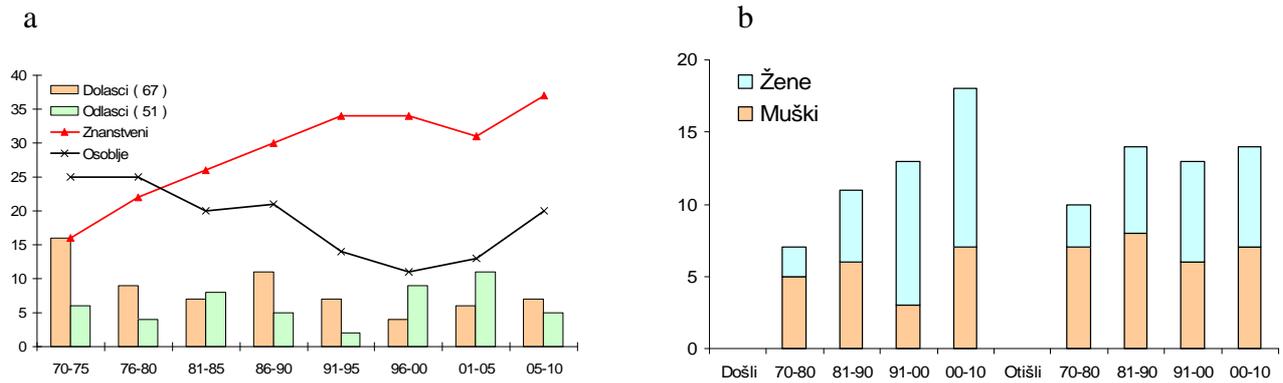

Za potrebe izrade bibliografije korištene su slijedeće baze podataka: internacionalna baza – web of science, nacionalna baza – bib.irb.hr, Godišnji izvještaji Instituta „Ruđer Bošković“ i Izvještaji kongresnih priopćenja CIESM. Literaturni navodi su podijeljeni u četiri poglavlja: I. radovi koji su citirani u Current Contents bazi podataka + u knjigama + u časopisima Thalassia Jugoslavica, Acta Adriatica i Periodicum Biologorum; II. radovi u ostalim, pretežno nacionalnim časopisima, III. radovi prezentirani na kongersima CIESM te IV. diplomski, magistarski i doktorski radovi. Ova četiri poglavlja predstavljaju glavninu djelatnosti Centra za istraživanje mora. Drugi dio djelatnosti CIM-a predstavljaju stručni radovi vezani za potrebe gospodarstva Republike Hrvatske koji nisu obuhvaćeni ovom bibliografijom.

Tijekom 50-tak godina istraživanja mora u Rovinju znanstvenici su djelovali u različitim organizacijskim strukturama u okviru Instituta „Ruđer Bošković“ (Slika 1.)

Slika 1. Promjene organizacijske strukture Centra za istraživanje mora tijekom vremena

Istraživanja su započela unutar jednog laboratorija 1962 godine a 2010 se odvijaju u okvirima Centra za istraživanje mora unutar kojeg djeluje 6 laboratorija. Organizacijske promjene tijekom vremena su na različite načine utjecale na razvoj istraživanja mora u Rovinju. Najuočljivije promjene se očituju u promjenama kadrovske strukture tijekom vremena (Slika 2a i 2b).

## ZNANSTVENA PRODUKCIJA

### I. Radovi koji su citirani u Current Contents bazi podataka + u knjigama + u časopisima Thalassia Jugoslavica, Acta Adriatica i Periodicum Biologorum

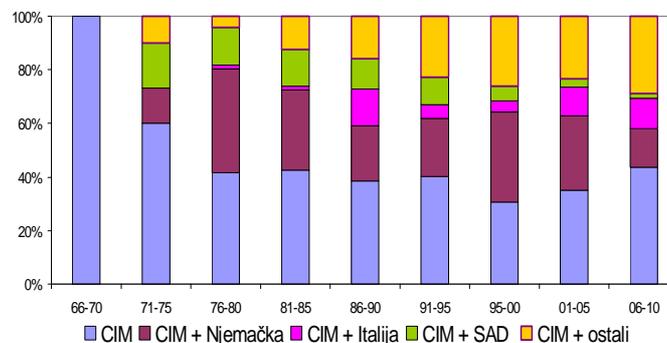

Od 1956 – 1970 godine znanstvena produkcija je rezultat djelovanja isključivo zaposlenih znanstvenika te 70-tih godina započinje i suradnja sa znanstvenicima izvan Rovinja, poglavito sa znanstvenicima iz inozemstva (Slika 3a i 3b).

Slika 3. Godišnja (a) i petogodišnja (b) znanstvena produkcija.

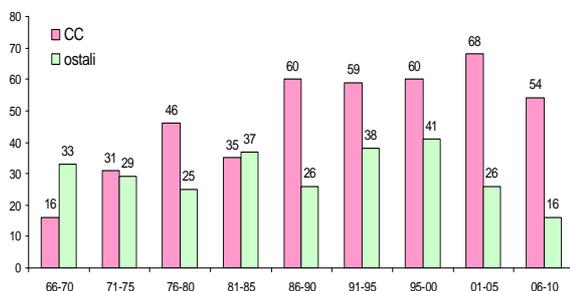

Znanstvenici Njemačke, Italije i SAD-a su značajno doprinjeli istraživanju mora čiji udio u znanstvenoj produkciji je prikazan na Slici 4.

### Suradnja

Slika 4. Udio znanstvenika iz pojedinih država u petogodišnjoj znanstvenoj produkciji

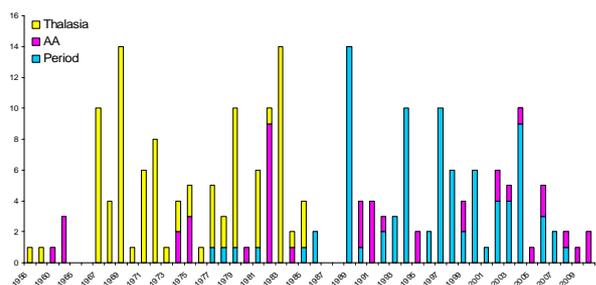

Krajem 60-tih glavnina znanstvene produkcije je objavljivana u časopisima Thalassia Jugoslavica, Periodicum Biologorum, Acta Adriatica i knjigima da bi se već 80-tih njihov udio u ukupnoj produkciji značajno smanjio u korist radova koje citira Current Contents (slika 5.).

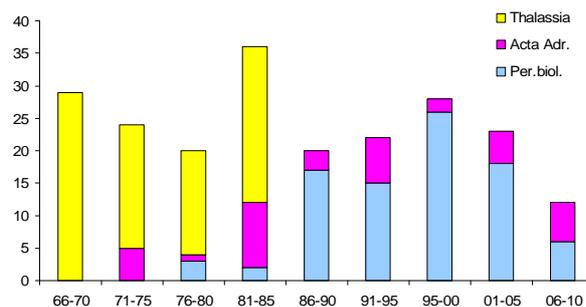

Slika 5. Usporedba petogodišnje znanstvene produkcije u časopisima koje citira CC s radovima objavljenim u časopisima Thalassia Jugosl., Period. Biol., Acta Adriat. i knjigama.

Iz godišnjeg prikaza znanstvene produkcije u časopisima Thalassia Jugosl., Period. Biol. i Acta Adriat. (Slika 6a) uočljivo je periodično objavljive većeg broja radova (> 10) u tematskim brojevima vezanim za more kao i prestanak izlazenja časopisa Thalassia Jugosl. čiju ulogu preuzima časopis Period. Biol. (Slika 6b).

Udio jednoautorskih radova u petogodišnjim razdobljima tijekom vremena se značajno smanjio u korist više od 5 (do 10) autora po jednom radu. Slika 7.

## II. Radovi u ostalim pretežno nacionalnim časopisima

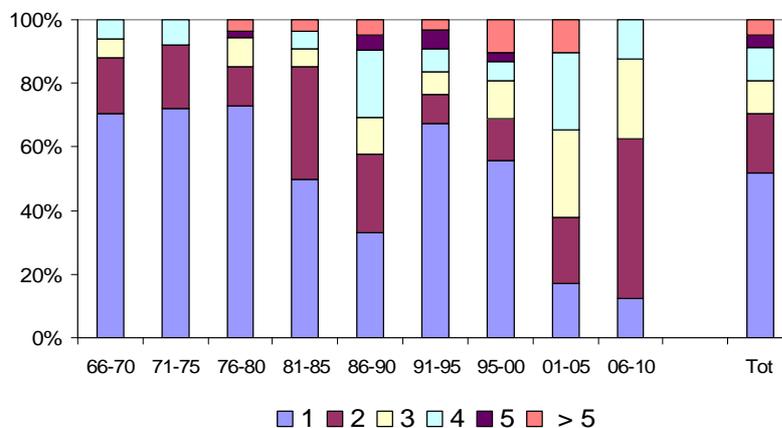

Drugi ne zanemariv dio znanstvene produkcije je objavljivan u ostalim, pretežno nacionalnim časopisima, gospodarskim vjesnicima i časopisima za popularizaciju znanosti. U periodu od 1985 – 2000 broj radova je značajno povećan u odnosu na prethodno razdoblje (Slika 9a) što je uočljivo iz petogodišnjeg prikaza produkcije na slici 9 b. Posebno se ističe 1992 godina sa 37 objavljenih radova.

Slika 9. Godišnja (a) i petogodišnja (b) znanstvena produkcija ostalih radova.

Pretežno su jedno- i dvoautorski radovi do 2001 godine kada više autora zajedno publiciraju i u ostalim časopisima (Slika 10.).

### III. Radovi prezentirani na kongresima CIESM

Treći dio znanstvene produkcije je objavljivan na međunarodnim kongresima CIESM koji su izuzetno značajni za istraživače mora na Mediteranu. Prošireni sažeci sa kongresa su dostupni globalnoj znanstvenoj zajednici putem izvještaja s kongresa, Rapp. Comm. Int. Mer. Medit. Dinamika prisustvovanja kongresima je prikazana na Slici 12a a iz deseto-godišnjeg prikaza (Slika 12b) je uočljivo slabo prisustvovanje 90-tih godina.

Do 2000 godine su pretežno jedno- i dvoautorski radovi a od 2001 godine više autora zajedno prisustvuju kongresima i objavljuju svoje rezultate kao produžene sažetke (Slika 13.).
